

International® MXT-MVA

The MXT combines all-around protection with superior mobility in the world's finest combat patrol vehicle. The reinforced frame rail system and the fully independent suspension provide extraordinary payload capacity and configuration potential. Its aggressive design features front fender integrated headlights, all-terrain tires, variable ride height, and outstanding 4x4 capabilities. It is ideal for border patrols, recon missions and security details. The MXT is in combat operations today and has proven itself a vital component for allied coalition forces.

- ✕ **Multiple Variants Available**
- **Comprehensive Lifecycle Support**
- ✚ **Complete 360° Protection**

NAVISTAR®
